Ponderosa Telephone Douglas Station Cable Replacement
A replacement cable is necessary in order to upgrade existing services for providing a more reliable communication network to the station.

Ponderosa Telephone Fiber Optic Cable from Marina View to Bass Lake Annex
Ponderosa Telephone is proposing to replace some copper cable and place new fiber optic cable between Marina View and Bass Lake Annex to provide more reliable service and greater bandwidth.

Red Mountain OHV Parking Area
Develop Off Highway Vehicle (OHV) staging and parking areas at White Bark Vista and Red Mountain.

SCE 45 Deteriorated Pole Replacements
SCE has identified 45 deteriorated poles on the High Sierra Ranger District that need to be replaced before they fail over or break, which could result in fires and/or resource damages.

SCE Dinkey Pole Replacements
SCE as 4 deteriorated poles within the Dinkey Fisherman’s Picnic area that need to be replaced.

SCE Siphon Circuit Upgrade
Underground 3 mile section of the Siphon 4kv circuit; remove tree attachments, old cable which is not accessible, and replace adjacent to Iwy 466. Will upgrade to 12kv cable and equipment. Will eliminate costly repairs during the winter months.

Sierra Telephone Bass Lake Fiber Project
This project involves the proposed installation of approximately 10,100 feet of buried conduit with fiber optic cable and empty conduit for future use from existing facilities on USDA Forest Service land.

Sierra Telephone Teaford Meadows Fiber Optic Project
Sierra Telephone proposes to install 10,100 feet of buried conduits with fiber optic cable to be placed in one of the conduits. The proposed route goes through USDA Forest Service land, beginning at USDA Forest Service land and continuing north to Teaford Meadows subdivision.

Special Use Permit Issuance for Phase 2 of the Ferguson Slide Permanent Restoration Project
The Forest Service proposes to issue an SUP allowing Caltrans to conduct Phase 2 of the Rackshah/Tunnel Alternative (Alternative R in the FEIS) on the Sierra National Forest.

Analysis Completed

Big Creek School New Sewer Line
Big Creek School is proposing to install a new 400 foot section of buried 6-inch sewer line and 2 new manholes and tying in with an existing SCE system, located on Forest Service land within the MRCA licensed boundary.

French Fire Recovery and Rehabilitation Project
The project would remove roadside hazard trees, recover the economic value of fire-killed/line-damaged trees, re-establish forest conditions, manage fuel loads, and work towards eradication of invasive non-native weeds.

Upper Billy Creek Campground Rehabilitation Project
The project would rehabilitate and replace existing campsites, ancillary amenities, and associated roads and parking areas at the Upper Billy Creek Campground.

On Hold

“B07” Motorized Trail Project
The project will develop needed social, economic and natural resource impacts and information to determine the purpose and need for the popular user defined “B07” route to establish it’s designation as a trail.

Concessionaire Permit Extension
Amend existing permit to extend two years for concessionaire permit.

Douglas/Lone Sequoia/Timberloft Prescribed Burns - NEPA Review
Improve forest health and wildlife forage though reduction of existing fuels, suppressed conifers and brush. A NEPA consistency review is needed so that prescribed burning may continue and achieve a "maintenance burn" level through multiple entries.

Ely, Balsam, and Bolsillo Creek Diversion Infrastructure Improvement Project
Evaluate the effectiveness of the implementation of the Southern California Edison Company's (SCE's) Ely, Balsam, and Bolsillo Creek Diversion Infrastructure Improvement Project on federal lands threatened, endangered, candidate, and proposed species.

Ershim Meadow Bridge
To protect meadow resources by building a bridge over a perennial water crossing on a congressionally designated OHV route (Dusty Ershim).

Haskell Conservancy Project
This prescribed fire project is bordered by the 10S03 to the South and the 10S69 to the West, North and East.
